## Study in Korea! Learn more at [ie3global.org](http://ie3global.org)

Students choose between two of Korea's most prestigious universities, Yonsei University and Ewha Woman's University, and pursue coursework in English or Korean. In addition to Korean language and culture classes, courses across a wide range of fields make these two programs accessible to many different majors. Both universities are centrally located in Seoul with easy access to public transit, world-class shopping, abundant nightlife, and architectural marvels. Students live on campus in international residence halls and participate in Korean life and culture through K-pop concerts, kimchi-making classes, and local festivals. Past participants have visited the demilitarized zone (DMZ) between North and South Korea and the Memorial to the Korean War, exploring ways our shared history continues to affect culture and current events.

**Duration:** Semester, summer, or academic year

### To participate:

- Sophomore standing or above
- Two or more terms at home institution
- No prior Korean language necessary
- 2.75 GPA or above
