Study in Japan! Learn more at ie3global.org

IE3 Global offers three unique programs in Japan—Aoyama Gakuin University and Waseda University in bustling Tokyo, and Akita International University in Japan's northern mountains. All three programs offer intensive Japanese language courses and English-language coursework in a number of disciplines.

Powered by Oregon State University

Students on the Waseda program typically live with a homestay family, while AIU and AGU students live in dormitories with Japanese and international students. Each program affords extraordinary opportunities to learn about and explore life in Japan. Past students have immersed themselves in Japanese life by joining one of the hundreds of student clubs (dance, hula hooping, rugby) and taking advantage of part-time job opportunities teaching English.

Duration: Summer, quarters, semesters, or academic year

To participate:

- Sophomore standing or above
- Two or more terms at home institution
- 2.75 GPA or higher
- No Japanese language experience needed for AIU or AGU
